

Project: Incident Management Response

Overview

This homework will allow you to demonstrate your understanding of incident management of deployed software.

Assignment Details

The ATM system that was the subject of your assignments is now operational. One day, large sums of money were withdrawn from several networked ATM systems by the same User ID. Describe how this security breach will be addressed in an Incident Management response.

Be sure to provide possible processes to report and act upon the incident. Also, describe follow-up and additional processes to ensure the incident was handled properly.

Your report should be well-organized and provide references for all resources used.

Deliverable

You should create a word or PDF document with your report on incident management response. The document should be well-written and include references for all sources you used to support your work. Be sure to include your name, date and course number on the document in the title page. Page numbers should be included on each page of the document.

Grading Rubric

Attribute	Meets	Does not meet
Incident Response	80 points Describes how an ATM security breach will be addressed in an Incident Management response. Provides possible processes to report and act upon the incident. Describes follow-up and additional processes to ensure the incident was handled properly.	0 points Does not describe how an ATM security breach will be addressed in an Incident Management response. Does not provide possible processes to report and act upon the incident. Does not describe follow-up and additional processes to ensure the incident was handled properly.
Documentation	20 points Document contains minimal spelling and grammar errors. Document includes page numbers. References included using APA style. Title page includes Name, date and course number.	0 points Document contains multiple spelling and grammar errors. Document does not include page numbers. References were not included. Title page missing or did not include name, date and course number.
